## **venus Fly Traps**

These cool, carnivorous plants make grait house plants. If you no some one with one, you could ask for a cutting and grow one your self.

If you want to impress peopel, their latin name is *dionaea muscipula*.

They look tropical but weirdly thay are actually American, where thay liv in Bogs - nice!

it may be one of the scariest plants in the natural world but it needs protecting. It is becoming extint because peopel are destroying its home.
